EXPERIENCE

Intel

Bangalore, KA, India

Research Scientist

May 2025-Present

- Enabling and optimizing AI/ML models on Intel hardware.
- Developing Vulkan compute shader remote offloading.

Tejas Networks/Saankhya Labs

Bangalore, KA, India

Lead Engineer

Apr 2024-May 2025

- Built (PoC) broadcast content delivery network.
- Created PoC on traffic steering application (includes time-series prediction) for existing NMS (along with O-RAN compatibility).
- Worked on portable physical layer software using MLIR compiler framework.
- Represented Tejas Networks in O-RAN nGRG (RS-02) to contribute towards future RAN.

Senior Member Technical Staff

Jul 2021-Mar 2024

- Built (PoC) **energy-efficient rApp** (runs on non-real time RAN intelligent controller). This includes creating a **digital twin** of the wireless telecom network, developing *AI/ML algorithms* etc.
- Guided towards building framework for *portable* and *scalable* physical layer (physical layer operations as microservices) including domain specific language (DSL).
- Hands-on guidance to team for **cross-platform compilation** of CU, DU codebase.
- Worked towards bringing **execution and pipeline parallelism** for the L1 process chain of Eurecom OpenAirInterface5g (OAI).
- Made VNF/PNF (**FAPI**) work in OAI (NR).
- Developed **static graph scheduling algorithms** (C++) to allocate heterogeneous processing resources for Intel **FlexRAN** (C). Developed auxiliary tools (Python) as required to support debugging and visual representation. **Refactored** existing **codebase** to support the plugging of various algorithms.
- Created (PoC) end-to-end framework for provisioning DU in the cloud. Implemented communication using **gRPC** (C/C++/Python).
- Created and maintained **docker image**, and GitLab **CI pipeline**.
- Part of ORAN WG1, WG6 from Saankhya to contribute towards future RAN.

PROGRAMMING SKILLS

C, **C++** and **Assembly** (used in embedded projects and at Saankhya/Intel); **Kubernetes**, **Docker** (telco-cloud, O-RAN); **Python** (used to develop reinforcement learning algorithm in PhD, frequently use for website scraping, scripting, data-analysis and personal finance); **CPLEX** (daily driver in PhD for research); **Google OR-tools** (at Saankhya); **MatLab** (daily driver in M.Tech and PhD for research); **Simulink** (used for hobby projects and M.Tech research); **Latex** (use for medium to large document preparation); **HTML**, **CSS** and **JS** (used for hobby projects and iitp.ac.in/ieeesb website)

EDUCATION

- **Indian Institute of Technology Patna** | 2021

PhD in Electrical Engineering

Visiting scholar at GSSST, **Indian Institute of Technology Kharagpur**

Thesis Title: Energy-efficient IP-over-Elastic Optical Network Planning and Operation Strategies.

Supervisors: Dr. Sudhan Majhi (**IISc Bangalore**), Dr. Aneek Adhya (**IIT Kharagpur**)

- **Rajabazar Science College** | **University of Calcutta** | 2014

M.Tech. in Electrical Engineering | CGPA: 8.4 (out of 10)

Research Topic: Stochastic Optimization-based Parameter Estimation and Design of PID Controller for Twin Rotor MIMO System

- **Kalyani Government Engineering College** | **West Bengal University of Technology** | 2012

B.Tech. in Electrical Engineering | DGPA: 8.06 (out of 10)

Project Topic: Processor-based Temperature Controller

SCHOLARSHIPS

- **Visvesvaraya** PhD Fellowship, *MeitY, Govt. of India* (25% more fellowship amount than most of the other PhD Schemes)
- MHRD GATE

PARTICIPATION

Organized and participated in several seminars, workshops, technical and non-technical events.
Volunteered as **Chair** at **IIT Patna IEEE Student Branch**.

AREAS OF INTEREST

Optimization: Heuristics, Programming Formulation | Artificial Intelligence | Machine Learning | Optical Backbone Network | 5G/B5G Wireless-Optical Network | IoT/UAV/Drone Networks | Network automation | micro-services | System automation | Robotics | High-performance computing (HPC) | Compiler | Quantum optimization.

CERTIFICATION

Fundamentals of Accelerated Computing with CUDA Python | 2021
Organization: *NVIDIA*

Data Science for Business - Level 1, 2 | 2020
Organization: *cognitiveclass.ai, IBM*

KPMG Lean Six Sigma Green Belt | 2016
Organization: *Henry Harvin Education*

Embedded System | 2011
Organization: *Moniba Compu Academy with IBM*
